PROFESSIONAL SUMMARY

Data Engineer with 6.5+ years of experience building scalable batch and near real-time data pipelines on Databricks and PySpark for global retail (Adidas) and energy (TotalEnergies) clients. Skilled in Medallion Architecture, Delta Lake, Unity Catalog, Kafka streaming and Change Data Capture (CDC), processing up to ~1 TB/day with 99%+ data accuracy. Experienced in performance tuning, CI/CD and mentoring engineers.

TECHNICAL SKILLS

Languages: Python, SQL, Spark SQL

Big Data & Lakehouse: Databricks, PySpark, Delta Lake, Unity Catalog, Medallion Architecture, Spark Structured Streaming, Kafka, Change Data Capture (CDC), ETL

Cloud: Azure Databricks, Azure Data Lake, Azure SQL Server, Azure Cosmos DB, Azure Function Apps, Azure Key Vault, AWS S3

DevOps & Tools: Jenkins (CI/CD), Git, GitHub, Bitbucket, Agile/Scrum

EXPERIENCE

Senior Associate Consultant (Data Engineer) — Infosys Limited, Noida

Feb 2025 – Present

Client: Adidas | Databricks, PySpark, Spark SQL, Delta Lake, Unity Catalog, AWS S3, Jenkins, Bitbucket

- Build end-to-end ETL pipelines on Databricks Lakehouse using Medallion Architecture (Bronze/Silver/Gold) with Delta Lake and Unity Catalog for retail finance and sell-out data from 1,200+ global stores and e-commerce platforms (~500K transactions/day).
- Implemented CDC-based incremental loads for near real-time updates (~5–10 min latency) and optimized PySpark/Spark SQL transformations, reducing batch runtime by ~35%.
- Engineered Amazon Connect call-transcript pipelines processing ~200K JSON files/day from AWS S3 across 8 global regions, using Structured Streaming, schema evolution and Delta MERGE upserts.
- Maintain 99%+ data accuracy for finance and sales dashboards, cutting manual reporting effort by ~40%; automated zero-downtime daily deployments with Jenkins and Bitbucket.

Systems Engineer (Data Engineer) — Tata Consultancy Services, Noida

Feb 2020 – Jan 2025

Client: TotalEnergies | Azure Databricks, PySpark, Kafka, Python, Azure Data Lake, Cosmos DB, Azure Function Apps, Azure SQL Server

- Built real-time streaming pipelines with Kafka, PySpark and Azure Databricks processing ~1 TB/day of drilling sensor data (millions of records/hour) into Azure Data Lake and Cosmos DB with 99%+ accuracy.
- Implemented CDC incremental loads across batch and streaming pipelines; reduced pipeline execution time by ~50% through PySpark optimization.
- Delivered curated data for well-kick and stuck-pipe risk models, giving operations teams ~3 hours of early warning to prevent downtime.
- Developed batch pipelines with Python, Azure Function Apps, Azure Data Lake and Azure SQL Server for reporting and analytics, reducing manual effort by ~30%.
- Automated Databricks job monitoring with Python and Microsoft Teams alerts, saving 1–2 hours daily; onboarded and managed six newly hired data engineers.

Hardware Design Engineer — Satyam Software Solutions Pvt. Ltd., Noida

Jun 2019 – Feb 2020

- Designed schematics and PCB layouts for Smart Ticket Vending Machines and AFC Gates for Delhi Metro Rail Corporation using Altium Designer and KiCad.

KEY PROJECTS

- **Amazon Connect Call-Transcript & Sentiment Analytics (Adidas):** Medallion pipeline for Contact Lens voice analytics; contact- and transcript-level datasets for agent coaching, sentiment analysis and NLP.
- **Retail Finance & Sell-Out Reporting Lakehouse (Adidas):** CDC-driven Lakehouse pipelines and Gold layers powering global finance and sales dashboards.
- **Real-Time Drilling Sensor Data Platform (TotalEnergies):** Real-time drilling data platform on Azure Databricks and Kafka for monitoring and predictive analytics.

EDUCATION

B.Tech, Electronics & Communication Engineering — IIMT College of Engg., Greater Noida (71%)

2015 – 2019

CERTIFICATIONS, AWARDS & LANGUAGES

Certifications: Azure Databricks Platform Architect Accreditation – Databricks (2025) · Databricks Fundamentals Accreditation – Databricks (2025) · Data Science Certification – ExcelR (2022) · Python for Data Science, AI & Development – Coursera

Awards: Star Team Award, Process Improvement Award — Tata Consultancy Services

Languages: English (Professional), Hindi (Native)
